

WHY EVERY BUSINESS NEEDS A LAWYER

I tell every business person I meet that every business needs two professionals: an accountant and a lawyer. The reasons for hiring an accountant are pretty obvious--you need someone to help you set up your "chart of accounts," review your numbers periodically, and prepare all of your necessary federal, state and local tax returns. The reason for hiring a business attorney are not always obvious. But a good business attorney will provide vital assistance in almost every aspect of your business, from basic zoning compliance and copyright and trademark advice to formal business incorporation, employee relations, lawsuits and liability.
